

Ohio Cybersecurity for Small Businesses

Led by The Ohio State University's Center for Design and Manufacturing Excellence and funded [in part] through a Cooperative Agreement with the U.S. Small Business Administration

Overview

This program is structured into three progressive gateways, each focusing on different aspects of cybersecurity readiness. Small businesses can enhance their cybersecurity posture, safeguard their operations, and maintain a competitive edge in today's digital economy.

Key Benefits

Practical skills on cyberattack prevention, response and recovery

Customized training and industry-recognized credentials

Improved ability to safeguard sensitive data and systems

Gateways

1

Foundational cybersecurity awareness training for employees, covering essential topics and best practices.

↓
Earn Badge I

2

Advanced training on developing robust cybersecurity plans tailored to the business' industry and needs.

↓
Earn Badge II

3

Personalized support and specialized training to earn industry-recognized credentials through the TechCred program.
